

Internship Exchange

The UD has a partnership agreement on internship exchange with academic institutions abroad such as i.e. Hamburg School of Business Administration (HSBA) in Germany. Students may choose to travel during the regular internship terms (Winter and Summer). Students who are willing to do their internship at Hamburg must register at ICDC during the internship registration period as announced by the Center.

The academic requirements for internship exchange are the same for regular internship and industry-based-project as stated above. However, the priority is given to students with CGPA 2.5 and above and with distinguished English and Business communications skills.

As to the internship exchange fees, the student pay for the internship as regular course at UD and do not have to pay any thing for HSBA. However, the student should be financially capable to bear the four weeks internship expenses i.e. (accommodation, transport and others) during h/her stay abroad.

To know about HSBA and its internship partners in Hamburg please visit the following website:
